

Conservation of Ancient Bronzes: A Novel Approach

By

Dr. U.S. Lal & Dr. Manager Rajdeo Singh

Contents

	PageNo.
• Part: I Metallurgy	1
• Copper and its alloys	2
■ Introduction	
■ Copper ores	
■ Tin ores	
■ Zinc ores	
■ Composition of Copper alloys	
• Casting technology	6
■ History of casting technology	
■ Lost wax process	
■ Dhokra process	
■ Bidri ware	
• Part: II Deterioration	16
• Corrosion	17
■ Definition	
■ Why metal corrodes?	
■ Factors of corrosion	
■ Classification of corrosion	
■ Corrosion and its implications	
• Corrosion products of copper and its alloys	28
■ Oxide group	
■ Carbonate group	
■ Sulphide group	
■ Sulphate group	
■ Chloride group	
■ Acetate group	
• Incrustations over the copper alloys	40
■ Siliceous incrustations	
■ Calcareous incrustations	

• Patina	42
■ Natural patina	
■ Noble patina	
■ Malignant patina	
■ Artificial patina	
• Part: III Remedial Conservation	46
• Removal of incrustations	47
■ Mechanical methods	
■ Water blasting method	
■ Ultra sonic cleaning method	
■ Laser cleaning method	
■ Chemical methods	
■ Electrochemical cleaning	
■ Electrolytic cleaning	
• Removal of calcareous deposits	51
■ Mechanical methods	
■ Chemical methods	
■ Sodium hexametaphosphate(calgon)	
■ Alkaline Rochelle salt	
■ Alkaline glycerol	
■ Sodium tripolyphosphate(STPP)	
• Removal of siliceous deposits	54
■ Mechanical methods	
• Treatment of “Bronze Disease”	55
■ Removal of chloride	
■ Distilled water method	
■ Sodium Sesquicarbonate method	
■ Stabilization	
■ Silver oxide method	
■ Zinc dust method	
■ Benzotriazole (BTA) method	
• Treatment of high leaded bronze	59
■ Benzotriazole (BTA) method	

• Inhibitors	61
■ Mechanism of inhibition of corrosion	
■ Benzotriazole (BTA) method	
■ Ammonium thiocynide method	
• Protective coatings	66
■ Inorganic	
■ Organic	
■ Characteristic of coatings	
■ Water absorbance power	
■ Resistance towards acid and acidic vapours	
■ Transparency	
■ Polyvinyl acetate	
■ Paraloid B-72	
■ Polymethyl methacrylate	
■ Microcrystalline wax	
• Part: IV Preventive measures and case study	74
• Preventive measures	75
■ Environment	
■ Relative humidity and temperature	
■ Light	
■ Atmospheric pollutants	
■ Handling	
■ Applying Accession Numbers	
■ Display	
■ Mounts and supports	
■ Packaging	
■ Transportation	
■ Storage	
• Case study	82
• Conclusion	86
• Bibliography	88
